### DETAILED ACTION

This office action is in response to the amendment filed 11/3/09. As directed by
the amendment, claims 32, and 58 have been amended and claims 47 and 50-52 have
been cancelled and no claims have been added. As such, claims 32-46, 48-49, and 5358 are pending in the instant application.

## Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: when read in light of the limitations of the claimed locking clip for a headgear assembly for a respiratory mask, the prior art of record by itself or in combination does not disclose the specific structure and relationship as recited in claims 32 and 58 such that each of the clip's spring arm proximal portions are spaced from the main body by a first gap and the central portion is spaced from the rear portion by a second game such that the proximal portion defines an edge of the first gap and the central portion defines an edge of the second gap the gaps forming a L-shape.

The closest prior art references are: Matoba (7,111,368), Anscher (5,507,076), and Schmitz (2003/0106192) which all relate to locking clips.

The prior art of record does not disclose the structural limitations related to the locking clip's proximal portion defining an edge of the first gap and the central portion defining an edge of the second gap as discussed above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
